PERSONAL AND SOCIETY.

[All society and personal notes for the Sunday issue of the Journal; to secure publication, must be sent to the city editor by Saturday noon.]

The "heart" parties seem to have taken the popular fancy, and now one may look for ideas relative to them to be carried to extremes in decorations and all other details of such entertainments. But as a "heart" party is especially appropriate for a card entertainment, why could not one have a party named after some of the other cards? A "club" is very suggestive, so are "spades" and "diamonds," and the ideas brought to bear in arranging the spade club or diamond party could be as varied as those which marked the kindergarten "heart" tea at Mrs. De Vay's Thursday last. When the "heart" tea was suggested there was a rush of suggestions from which came the putting of flowers, cakes, ices, tables and favors, in heart shape. "Bleeding hearts," the flowers, were thought of, and as the work of preparation progressed the ladies kept coming forward with their "heart" offerings. As pink teas have also been popular, why could not one have a green tea, a Japan tes, or perhaps some other color. Pink is beautiful, but so are blue and lavender, and red and yellow. When one begins to think of the kinds of entertainments to think of the kinds of entertainments that might be given, like, and yet unlike, those that have been given, there is almost an unlimited number of things to select from. Any one of them would be sufficiently novel to attract—either for a charity tea or reception, or prove interesting for a private entertainment.
